Board Agenda Item

TO: Air Pollution Control District Board

FROM: Terry Dressler, Air Pollution Control Officer

CONTACT: Gary Hoffman, 961-8818

SUBJECT: Carl Moyer Memorial Air Quality Standards Attainment Program- Year 9 Funding Update

RECOMMENDATION:

Approve a revised District application to receive additional state Year 9 Carl Moyer Program funds up to \$825,000.

DISCUSSION:

On October 18, 2006 your Board approved a resolution authorizing District participation in the Year 9 funding cycle of the California Air Resources Board's (ARB) Carl Moyer Program and approved the allocation of up to \$114,000 in District match funding to qualify for grant funds of \$705,642. Since that time the ARB has received all air district applications and has determined that, due to several smaller districts declining participation in this round of funding, the \$114,000 in District match approved by your Board has made the District eligible for additional funds that ARB will reallocate.

To be eligible for this additional funding, ARB requested that we revise our Year 9 application which was submitted on November 10, 2006. ARB also related that more funds may become available before June 2007 if other districts decline participation. The District match funds of up to \$114,000 approved in the October resolution would allow the District to receive up to about \$825,000 in Moyer grant funds. Therefore, we submitted a revised application on December 15, 2006 requesting future grant funds up to \$825,000 should they become available. The previously Board-approved District match funds of \$114,000 will not change with this action. The previous amount of \$705,642 has been revised to \$825,000 in our grant application (attached).
