Board Agenda Item

TO: Air Pollution Control District Board

FROM: Terry Dressler, Air Pollution Control Officer

CONTACT: Ron Tan, Planning and Technology Supervisor (961-8812)

SUBJECT: Old Car Buyback Program

RECOMMENDATION:

Receive and file notification of program funding increase for the APCD Old Car Buyback program.

DISCUSSION:

On June 15, 2006 your Board authorized the APCO to increase the funding amount for the APCD Old Car Buyback (OCBB) program by \$150,000 with an option for an additional \$100,000 increase if community interest justified it. The purpose of this authorization was to ensure that the OCBB program will continue without interruptions which might result from delays in obtaining additional funding allocations. Staff agreed to update the Board of any increases in OCBB program funding authorized by the APCO at the subsequent Board meeting. At the August 17, 2006 meeting your Board received an update that the APCO had increased the OCBB budget by \$150,000 on July 25, 2006, resulting in a total program funding amount of \$400,000. Continued demand has created the need to once again increase the program funding and on January 2, 2007 the APCO increased the funding amount by an additional \$100,000 (See Attachment 1).
