

DRAFT
Minutes
of
The Santa Barbara County
Air Pollution Control District
Community Advisory Council

September 13, 2006

I. The meeting was called to order at 6:33 p.m.

II. Roll Call

There was a quorum in attendance. Thirteen members were present and two members joined the meeting later.

III. Approval of Minutes

Motion to approve August 9, 2006 minutes.

Banigan /Winters

Motion Passed: 12:0:1

Abstain: Oliver

IV. Public Comment

There were no public comments. Jayne Brechwald reported on the American Lung Association of California *Clean Air Decision 2006* report and also Proposition 87 and AB 32, state legislation addressing global climate change and its effects on greenhouse gases and public health. Norvell Nelson announced that Stanford University was holding a symposium on September 18, 2006 entitled *Global Climate and Energy Project*.

V. Organization of Agenda and Declaration of Interests.

There were no changes to the order of the agenda. Members gave their Declarations of Interests which are listed on an attached sheet.

VI. APCO Report

Tom Murphy reported that he was standing in for Terry Dressler who was in Sacramento attending a CAPCOA meeting. Mr. Murphy welcomed back Norvell Nelson to the CAC. He had recently been appointed by Supervisor Firestone.

Mr. Murphy reminded CAC members to attend Ethics training on September 22, 2006. He gave an update on Rule 333 stating that a workshop will be held in late September or early October.

VII. New Business

- A. Discuss and consider the 2007 Clean Air Plan Chapter 6 – Emission Forecasting.

Joe Petrini, of the APCD, gave a presentation on Chapter 6 explaining the methodology use to calculate future emission trends for onshore and offshore sources. The CAC was especially concerned with the considerable increase in marine shipping emissions and felt that stricter standards for marine engines and fuel are necessary. There was a lengthy discussion on the data used to estimate these emissions. Also, several members suggested further consideration of the data on oil production and number of wells due to the increase in oil prices.

- B. Discuss and consider the 2007 Clean Air Plan Chapter 7 – Federal Maintenance Plan.

Dr. Ron Tan, of the APCD, explained that the 2007 Clean Air Plan was being prepared to satisfy the provisions of the federal Clean Air Act that apply to our current classification as a maintenance area for the federal 8-hour ozone standard. He said that Santa Barbara County is designated as an “attainment/unclassified” area which is a new category name used by the U.S. EPA. Dr. Tan summarized the five required plan components and how the 2007 Plan addresses those components. Several CAC members made suggestions which included using the ARB NOx factor for marine shipping emissions, and suggested including a graph that would illustrate trends in offshore marine vessel emissions versus number of violations of the federal 8-hour ozone standard.

VIII. Adjourn

The meeting was adjourned at 8:15 p.m.

COMMUNITY ADVISORY COUNCIL
Declaration of Interests
September 13, 2006

| | VII-A Interests | VII-B Interests |
|------------------|--------------------|--------------------|
| Tom Banigan | Yes | Yes |
| Jayne Brechwald | None | None |
| Ramzi Chaabane | Yes | Yes |
| Marc Chytilo | Absent | Absent |
| George Croll | Absent | Absent |
| John Deacon | None | None |
| Fran Farina | None | None |
| John Gilliland | Absent | Absent |
| Connie Hannah | None | None |
| Bea Kephart | * | * |
| Bob Kober | Yes | Yes |
| Lee Moldaver | Absent | Absent |
| Norvell Nelson | None | None |
| Glenn Oliver | Yes | Yes |
| Bill Peitzke | None | Absent |
| Aaron Petersen | Absent | Absent |
| Larry Rennacker | * | * |
| John Robinson | None | None |
| Patrice Surmeier | None | None |
| Gary Winters | None | None |
| Kevin Wright | Absent | Absent |

* Arrived after Declaration of Interests was stated.
