

Rule 331 Inspection and Maintenance Plan Component Exemption Retraction Form

In order to streamline compliance with the California Air Resources Board's Greenhouse Gas Oil & Gas Regulation, a source may retract a previously approved Rule 331 exemption if done in writing prior to September 30, 2024. The District recommends this approach in order to avoid having to implement two separate LDAR (Leak Detection and Repair) programs at the same stationary source.

I, am employed by or represent
(Type or Print Name)

(Type or Print Name and Address of Buisness, Corporation, Co., Individual or Agency)

and as of September 30, 2024, hereby wish to retract all previous exemptions claimed in my District-approved *Rule 331 Inspection and Maintenance Plan* for the following component categories:

- ☐ Section B.2.c: One-half inch and smaller stainless steel tube fittings which have been determined to be leak-free by the Control Officer based on an initial inspection in accordance with Section H.1.

This retraction shall constitute an amendment to the District-approved *Rule 331 Inspection and Maintenance Plan* for the following stationary source and all facilities associated with that stationary source with the exception of facilities located on the Outer Continental Shelf:

Stationary Source:

Stationary Source ID #:

I certify that all the information herein is true and correct.
