

RULE 1105. PUBLIC AWARENESS AND INVOLVEMENT. (Adopted 9/15/1980, revised 1/21/2010)

The District provides information to the public in a variety of ways to enhance awareness of air quality and public health issues, increase knowledge of air pollution control techniques, and help the public participate in regulatory and other efforts to improve air quality.

The District:

- A. Maintains a public website with documents, rules, Board agendas, and other informational materials available for access and download.
- B. Publishes legal notices informing the public of upcoming public hearings, workshops, and opportunities for public input.
- C. Issues news releases announcing important developments. District staff are available to the public via phone and email, the media, forums and community events, and publications to involve the public in ongoing efforts to improve air quality.
